PARAFFIN ANYWHERE™

FACIAL TREATMENT PROTOCOL

Treatment: The first ever self-heating brush-on treatment features medical-grade, therapeutic paraffin with apple stem cell technology in a Nourishment+ blend infused with vitamins A, C, and E, Green and White Tea Extract antioxidants. This versatile client-exclusive spot application treatment with dripless brush, enables technicians to supercharge existing skin care product performance. Activated with Lava Gel® and lavender AromaVapor® Solution, Paraffin Anywhere creates exceptional signature services that enhance the client experience for hands, feet, face, décolletage, mani, pedi, elbows, knees, back...or, literally, *anywhere!*

Benefits: Stimulates circulation and deeply moisturizes skin.

Products and Tools Needed: 1 Paraffin Anywhere Kit

Duration: 15 minutes

STEP ONE

Activate Paraffin Anywhere according to instructions on Lavender AromaVapor Activator Solution.

STEP TWO

Cleanse face prior. Perform any exfoliation prior to applying the paraffin to the area.

Optional

Pre-treat face with appropriate serum to allow for deeper skin penetration, or a light coat of hydrating cream for additional hydration benefits.

STEP THREE

Place the Paraffin Anywhere cup close to the face on a tray or on the treatment bed. Starting at the forehead, brush a thin layer of paraffin on the whole face, neck, and décolletage area, if desired. The paraffin may run slightly, so keep a small towel nearby for blotting.

STEP FOUR

Place cotton eyepads directly over the eyes.

STEP FIVE

Dip gauze facial mask completely in paraffin. Remove the mask from the cup and allow it to drip for a few seconds. Place the paraffin-coated mask on the face

STEP SIX

Brush 3-4 additional layers of paraffin on the mask, keeping the layers as even as possible.

therma**bliss**[®]

Optional

Perform a Lava Shell neck and shoulder massage during the Paraffin Anywhere facial treatment.

STEP SEVEN

After 15 minutes, remove paraffin mask starting at the decolletege or neck and peeling gently. Wipe with a soft towel to ensure that all the paraffin is completely removed. Discard all used paraffin.

Optional

Perform facial massage. The heat from the paraffin will promote muscle relaxation and improve circulation, increasing the effectiveness of the massage.

STEP EIGHT

Finish treatment with skin appropriate topical serum or cream and follow with SPF.
