

## DEPILATORY ANYWHERE™ - HARD WAX

### FACIAL TREATMENT PROTOCOL

**Treatment:** This client-exclusive, self-heating portable depilatory wax system melts on-demand in 3-5 minutes with Lava Gel® mineral energy activated by lavender AromaVapor® Solution. Eliminates the hassle of long melt times and is perfect for off-site, remote and mobile services.

**Benefits:** Comfortably removes hair from all body parts.

**Products and Tools Needed:** 1 Depilatory Anywhere Hard Wax Kit

**Duration:** 10-15 minutes

#### STEP ONE

Activate Depilatory Anywhere Hard Wax according to directions on package.

#### STEP TWO

Clean and prep client's skin with appropriate pre-wax products.

#### STEP THREE

Test temperature of wax on forearm prior to application.

#### STEP FOUR

Use wooden stick to apply hard wax to skin using thin layers over one another, creating one thick layer.

#### STEP FIVE

Using stick, lift the corner of the wax in the direction opposite of the hair growth. Hold skin taught against the direction of pulling then quickly pull the hardened wax off the skin, avoiding lifting up the skin.

#### STEP SIX

Repeat until treatment area is complete with hair removal.

#### *Pro Tip*

You may use hard wax on the previously waxed area again.

#### STEP SEVEN

Complete service using post waxing product to remove wax residue off the skin. Apply calming cream.

#### *Pro Tip*

Since this is a client-exclusive depilatory service, there is no precaution needed regarding double-dipping. You can keep reusing the same wax stick applicator directly into the disposable wax cup.
